### Selectmen's Meeting

#### GOODSPEED ISLAND EASEMENT

Mattapoisett Selectmen with Town Counsel Donald Fleming reviewed a draft of the Goodspeed Island easement in a short meeting on election night. Several points were discussed and possible changes suggested in the perpetual easement proposed to be granted to owners Daniel Mahoney and Neilson Abeel. The document would provide access to the "island" via the sewer line embankment for which the grantees would pay a fee of \$1000. Chief among the points discussed were the desirability of underground installation of utility services and possible hydrant on the island for fire protection as well as a turn-around for the same purpose. In this proposal the town reserves the right to use any part of the easement. Selectman John DeCosta suggested that the town discuss with the owners the possibility of setting aside some of the easement for a

## We'll help you get it.

We believe you should have something for those 2000 hours you put in each year. That's why we offer a free Perpetual Money Wheel. It shows how a man of 35 can put \$600 aside each year in a Perpetual Money Plan (that's \$50 a month) and have over **\$46,600** at age 65 . . . plus **\$217 income** each month . . . month after month . . . *indefinitely!*

And that's only one of 296 fascinating ideas on our Perpetual Money Wheel. Where can you get it? Only in our lobby. How much will it cost you? Nothing. Come in and ask.

parking lot for the town beach west of Goodspeed Island. He also suggested that any service lines installed underground be of a size to accommodate future facilities at the beach and any water or sewer main be sized accordingly.

Chairman Blasdale suggested changes in portions of the language of the easement to make it as clear and "tight as possible" because he explained, "perpetual is forever". He said, "I have no problem with the owners of today but we are looking down the road to other owners under another Board of Selectmen."

The Selectmen decided to view the easement with the owners on the weekend and take up the matter at their next meeting.

In other shellfish business, Selectmen were notified by State authorities that the town has no authority over crab fishing and were asked to rescind a vote of last week closing the town to crab fishing. This action was taken and Selectmen will request the Division of Marine Fisheries to look at the crab situation. Shellfish Warden Pauline had made the request to stop crabbing because the crabs are too small.

## Letter to the Editor

Dear Madam Superintendent Ms. Walsh and School Committee Chairperson Master Marshall Severance:

Please excuse Billy Wood's absence from the two previous meetings. I am sorry that Billy did not realize an excuse was necessary for him to miss a meeting.

Billy did not think he had to attend these two meetings because the "committee" had already reached their decision on the Junior High field (prior to having a meeting) that they should increase the budget - a budget that the townspeople of Mattapoisett had voted down because they felt it was excessive. I believe it was 18.3% above last year.

I am especially sorry that Billy was not there to vote on paying someone \$325. to close the gate on Saturdays, Sundays and

### A THANK YOU

One week ago I called the Mattapoisett Police for an ambulance for my husband to our summer home at Angelica Point. Thanks to their prompt and courteous help, he is doing well at Massachusetts General Hospital in Boston, where he was transferred from St. Luke's. We were unaware that he was hemorrhaging internally, so their promptness averted a tragedy. We would like to publicly thank them. God bless them.

## Tobey Hospital

THE EMERGENCY ROOM-NERVE  
CENTER OF TOBEY HOSPITAL

If ever there was a part of Tobey Hospital that could be labeled its nerve center, the Emergency Room qualifies for that title. It is there that many people get their first introduction to the hospital, many through severe trauma, many as a result of malfunction of some part of their systems, all seeking the skills of the personnel who staff this department to bring about relief, if not a cure.

The Emergency Medical Associates, Inc. send qualified physicians who have passed scrutiny by the Credentials Committee of the hospital before they are allowed to work in the Emergency Room. These doctors work on a 24-hour basis, around the clock, and, by the nature of their scheduling, are staggered as to the days that they give at Tobey. Thus, one may not see the same physician two days in a row.

At one time, Tobey's own medical staff used to serve in the Emergency Room along with keeping up busy practices. This became so burdensome for these physicians that an alternative program was sought and the Emergency Medical Associates, Inc. was able to provide this.

The 24-hour coverage is very demanding on these physicians as often during the summer one physician is administering to 121 patients in a single day. These physicians do not admit patients to the hospital but must consult with a physician on the staff and refer the patients. This often accounts for the amount of time between

admission to the Emergency Room and final admission to a hospital bed as an inpatient. Frequently, tests are done and results have to be waited upon before decisions can be made that might admit the patient to the hospital or send the patient to the operating room suite. Sometimes, it is difficult for the patient to understand the delay and the long wait, but behind the scenes, everything is being done to insure the need for admission or operation.

Another aspect of the Emergency Service is that those with the most serious traumas or clinical conditions will be treated first and often, when a patient has been waiting to have a sore throat looked at, he finds himself at the end of the line. The hospital realizes the frustration that the patient must feel but signs have been posted to ask the less critical patient to be aware of the fact that serious emergencies will be handled first.

Then, too, when the hospital is void of its regular staff because of their office scheduling, the Emergency physician must be alert to the needs of the patients in the hospital - if a code occurs, which, when the call goes out, means that all personnel

must respond, the Emergency Room physician must leave his area and respond to that call, and often will be the only physician in attendance, in which case he must take charge - this in itself can consume a great deal of time and the patients waiting in the Emergency Room must wait a little longer. In this, the hospital asks forbearance from these patients in understanding the need of a patient who could be in danger of dying.

During the period of the year that tourists and summer residents come to the area, the demands on the Emergency Room and staff increases greatly. This span of time commences in April and continues each year up to November and sometimes in a good year up to December. This year so far from the beginning of April to the present time 11,853 patients have passed through the Emergency Room.

tient who comes to the hospital is not here because he wants to be, but rather, because he must be. At times, and perhaps most of the time, the patient is anxious, frightened, and seeks sensitive treatment. The staff, by and large, does an excellent job of allaying the fears and giving succor to the patient. Occasionally, there is an especially trying day and dispositions are worn thin; that is when we ask our staff to be especially vigilant and to try a little harder. If we do get a complaint it is handled immediately by the president of the medical staff who writes to the patient and assures him of a follow-up and answer to his complaint. Some of these complaints have merit - if they do, they are corrected, if they do not have merit, the physician still is made aware of it and consideration is given to the complaint.

Tobey is a community hospital, a small community hospital, that is trying in every way to serve the residents and visitors in this area. It has just passed its fortieth birthday and goes forward with its theme, forty years of caring.

**Cranberry Festival**

The Annual Massachusetts Cranberry Festival --- celebrating harvest time of the Bay State's most famous agricultural product -- will be held again this year at the Edaville Railroad Fair Grounds in South Carver on the weekends of September 27 and 28 and October 4 and 5.

There'll be a decidedly country flavor to the fair with activities geared to family enjoyment each day from 10 a.m. to 5:30 p.m.

One of the top events will be the Woods-men's Competition with ranking national and world competitors vying for prizes in such events as tree climbing, sawing and chopping.

There'll also be a National Quilting contest, with top competitors in the craft displaying their skill in this event whose heritage runs back to Colonial times.

And for the new Urban Cowboys and for the long-time followers of country music, a full schedule of live country and blue-grass musical entertainment is planned.

And, again this year the festivities will be highlighted by the crowning of a new Cranberry Queen.

Other events include: Plymouth County 4-H Fair, both days first weekend only; Cranberry Queen Pageant, September 27,

### Eisteddfod

MODERN BARDS, MINSTRELS, AND DANCERS  
WILL GATHER AT SMU EISTEDDFOD

To the ancient Welsh people, "Eisteddfod" was a "coming together and sitting down of bards and minstrels".

In these modern times, Eisteddfod is an annual autumn gathering of contemporary bards and minstrels, dancers, and artisans. Since 1971, when Eisteddfod was founded by SMU Associate Professor of Design Howard Glasser, the University has been the center each September for three fun-filled days of traditional folk music, dance, and crafts. More than 100 performers offer workshops, concerts, exhibitions, and friendly camaraderie to those who attend.

This year's Eisteddfod will take place on Friday, Saturday, and Sunday, September 26, 27, and 28. Participants will come from many parts of the United States, as

well as from Africa, the British Isles, Canada, and South America.

Open workshops, covering a spectrum of activities from dulcimer-playing to poetry readings to English Morris dancing lessons, will be offered free of charge all day Saturday and Sunday. Led by musicians and artisans from around the world, with five different areas in session at all times, the workshops allow spectators to wander the campus and sample different kinds of music, storytelling, and dancing.

This year, for the first time, Eisteddfod will feature a free "whistling contest", open to all, with prizes to be awarded to the best whistlers. Further details on this will be available at the festival.

Other activities during Eisteddfod will include: free outdoor country dancing each afternoon at 5:00 on all three days; a crafts fair in the SMU auditorium lobby on Saturday and Sunday; a children's concert at the Museum Outdoors on Old Westport Road on Saturday (less than a mile from the SMU entrance); and an exhibition in the SMU Gallery of American Primitive Art, a private collection of notable sculptures in the American primitive style. Evening concerts, for which admission is charged, will be held Friday, Saturday and Sunday

The lecture, to be given by Andrew Spongberg, M.D., will be at 7:00 p.m. on Wednesday, October 1, at the Hospital in the White Home.
